

HARIHARAN VENKATESAN

4+ Years in Project Management, Process Automation & Learning Design
Karlsruhe, Germany | +49 15566433083 | hariharanve@gmail.com | linkedin.com/in/hariharanvenkatesan

Professional Summary

Graduating from KIT with a Master's in Information Systems Engineering and Management with 4+ years delivering digital projects and cross-functional initiatives. Passionate about digital transformation and product development, applying structured approaches to lead cross-functional teams and turn complex requirements into measurable business impact. Targeting Product Management and Project Management roles, with a particular interest in AI-adjacent and digitally driven environments.

Professional Experience

Momenta Europe GmbH · Working Student – Project Management & Business Development Nov 2024 – Aug 2025
Stuttgart, Germany

- Eliminated a fully manual access provisioning workflow by designing a GDPR-compliant CLA/SPA platform end-to-end — cutting onboarding to same-day automated approval and sustaining a 0-finding audit record over 12 months.
- Kept the Donau-Bosch Toolchain project on schedule by running weekly cross-team syncs, maintaining a live issue tracker, and resolving recurring blockers across a multi-stakeholder integration.
- Reduced privacy-notice translation turnaround ~60% by integrating AI tooling into the documentation pipeline, freeing the legal team from manual drafting.

Dell Technologies · Senior Analyst – Learning Design & Development Aug 2019 – Oct 2023
Bangalore, India

- Delivered a 30% improvement in content production efficiency across 20+ programs through process standardization, modular content architecture, and optimized stakeholder review workflows.
- Achieved 95%+ stakeholder satisfaction across all delivered programs by conducting structured needs analysis with 10+ SMEs and iterating designs before launch.
- Drove 30% improvement in program effectiveness through data-driven needs analysis — embedding analytics checkpoints at midpoint and post-delivery to validate adoption.
- Managed end-to-end project lifecycles across 20+ concurrent programs — from stakeholder scoping through delivery and post-launch reporting — coordinating 10+ cross-functional partners globally.

Education

Karlsruhe Institute of Technology (KIT) Oct 2023 – Sept 2026
M.Sc. Information Systems Engineering and Management · Karlsruhe, Germany
Thesis: "Quantifying Coordination Complexity in Multi-Agent Reinforcement Learning" — Graded 1.3 (distinction)

University of Mumbai Jul 2015 – May 2019
B.Eng. Information Technology · Mumbai, India
Thesis: ECG-based Heartbeat Classification using CNN — applied ML to medical signal processing.

Skills & Tools

Project & Product Management: Agile/Scrum · PRINCE2 · Jira · Confluence · Roadmapping · Requirements Analysis · Stakeholder Management · Risk & Issue Tracking · Project Lifecycle Coordination · Celonis · LMS Tools (Xyleme, Articulate Storyline)
AI & Data: Multi-Agent Reinforcement Learning (MARL) · LLM concepts (RAG, fine-tuning, hallucination, model drift) · Python · SQL · PowerBI · Google Analytics 4
Technical: Microsoft 365 (Excel, PowerPoint, SharePoint) · HTML/CSS · Figma · LCMS Tools
Languages: English (Fluent) · German (B1–B2, actively improving) · Hindi (Native) · Tamil (Native)
Soft Skills: Strong Communication · Networking · Problem-Solving · Analytical Thinking & Decision-Making · Organisational & Planning Skills · Leadership · Adaptability

Awards & Certifications

1st Prize – KIT × Mercedes-Benz Academic Co-Creation Challenge 2024: Won institution-wide competition by redesigning the e-Wagon logistics process at Mercedes Sindelfingen, selected from all KIT engineering tracks.
Brandon Hall Gold Award (Dell Technologies, 2021): Recognized globally for best custom learning content — awarded from 1,800+ entries across 22 countries.
Google Project Management Professional Certificate (2024) · Agile Apprentice Certification (2019) · PRINCE2 (in progress)
